To Whom It May Concern:

I'm pleased to recommend Arthur Kaufman and AnyTime Gutter & Screening. I contacted them after I realized the company that installed my existing gutters had gone out of business and was unable to service their work. I selected AnyTime Gutter & Screening because of their informative web site. I was pleased that Arthur, the owner of the company, personally came to my home to assist me.

In addition to a missing downspout, my existing gutters were not draining properly (they were holding stagnant water) and they had been installed below (rather than underneath) the metal flashing which was causing them to overflow during heavy rains and stain the outside of the gutters. Arthur gave a detailed explanation of the problems with my existing gutters as well as several options to consider.

After discussing the options with my wife, we decided to replace our existing gutters with new properly installed gutters from AnyTime Gutter & Screening. They removed the existing gutters one afternoon and installed new gutters the next day. Arthur and his staff were informative, professional, and hard working. Every question that I asked was answered with a level of detail and professionalism that gave me even more confidence in my decision to have them replace my existing gutters. The new gutters were properly installed under the metal flashing so they would not overflow and slightly angled so they would drain properly. They also replaced my patio screens making my patio look like new again. The best part was we didn't even have to pay for four months.

My wife and I highly recommend AnyTime Gutter & Screening for all of your gutter and screening needs (assuming you want the job done right the first time). We are extremely satisfied with the work they performed on our home and will definitely use their services again.

Sincerely,

A handwritten signature in black ink that reads "Alan W. Auldridge". The signature is written in a cursive, slightly slanted style.
