

October 25, 2010

Hi Arthur,

I want you to know how pleased I am with the wonderful new gutters! They look fantastic and there's no more leaks or "waterfalls" off the roof. The quality of the workmanship is definitely top notch! Your staff was very hard working and courteous. Thank you for answering all my questions and for making this such a pleasant experience. I'll definitely be telling everyone who needs gutters to call you!

Thanks again!

Christina Ruoto

The above testimonial is from a new homeowner in Boca Isles North. Prior to installing new gutters throughout, we first removed improperly installed gutters that were installed below the metal flashing that caused fascia rot as well as improperly pitched. The homeowner spent nearly \$8000 on repairs and new seamless gutters. As I've said on the web-site, improperly installed gutters is a very costly repair.
