

Parkland, Nov 17<sup>th</sup> 2011.

When looking for any type of services, it's always a nightmare because of before you close the deal, usually everybody promises you the heaven, and as soon as you start the service, then comes the "extras". Not to mention when people close the deal, and don't even care about who is delivering. Have pictured yourself in similar situations? I bet you did!

That is the reason why once we find a top-notch company like Any Time Gutter & Screening, doing the projects with passion and really with a high skilled professional staff, we need to publicly recognize that. Arthur's team had installed gutters around my entire house (+ 3,700 sq ft), had repaired 4 fascia boards and cleaned my roof. Also, he advised me about installing rain chains, instead of downspouts. So don't waste your time shopping for gutter installers. This is the company you should deal with!
