

December 19, 2011

Dear Arthur:

We recently moved into our new home and knew that we needed to install gutters and downspouts. One of my neighbors recommended you and passed along your website address ([www.anytimegutter.com](http://www.anytimegutter.com)).

Thank you for taking the time to create your website and educate consumers on the proper and improper installation of gutters and downspouts. After reading it and meeting you initially, I knew that Any Time Gutter was the correct company to choose for installing gutters and downspouts on my home.

The house looks great and your employees are friendly and professional. After the first rain post-installation, one of the downspouts needed some minor adjusting. You and your men were able to come out and resolve the issue on the same day! Thanks for the great customer service. I am definitely recommending Any Time Gutter to my neighbors.

Sincerely,

Nancy Cannon
